

## ***The Moog Fellowship***

*“UB provides a good source of educated engineers and potential employees. The university’s engineering students and professors are researching a variety of topics, many of which are important to future products and development at Moog.”*

*–Richard A. Aubrecht, Vice Chairman of the Board and Vice President of Planning and Technology at Moog.*

The Moog Fellowship will provide \$5,000 a year as an additional stipend for a graduate student who is a teaching or research assistant in systems engineering, electrical engineering or engineering design.
