

**BUCKET WIGGLE
SLIT LIVING DIKE**
Minimal disturbance, willows
were planted in a wet zone
approx. 2 ft down. Oriented
perpendicular to flow & angled
upstream.

Digging 2 ft deep, slit just wide enough for willows.

CONSTRUCTION-Fullerton Golf Course, CA, Derrick 11-20-2007

Living Dike will act as a key for the stone work.

CONSTRUCTION-Fullerton Golf Course, CA, Derrick 11-20-2007

Dense vegetation will slow flow velocities.

CONSTRUCTION-Fullerton Golf Course, CA, Derrick 11-20-2007

Backfilling the Bucket Wiggle Slit Living Dike.

CONSTRUCTION-Fullerton Golf Course, CA. Derrick 11-20-2007

**A TRENCHER
(DITCHWITCH TYPE)
COULD ALSO BE
USED FOR THIS**

We will do this during winter
2008 in Mankato, MN.
