

# UB Curriculum (General Education) Pathways

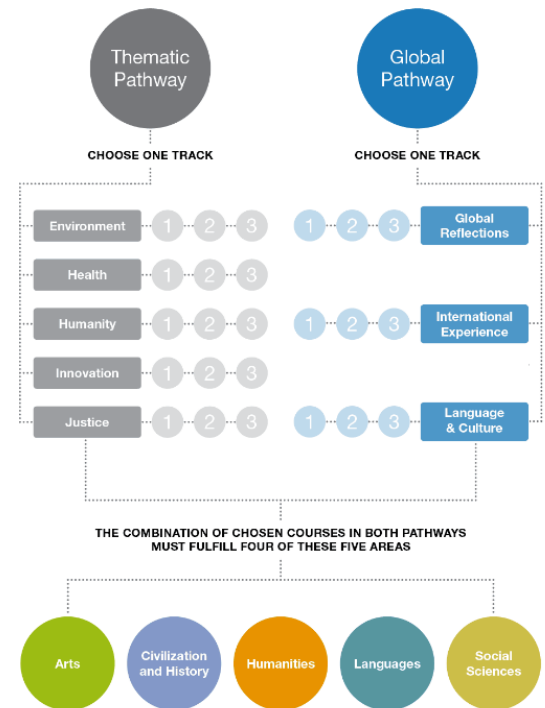

Students take both a Thematic and a Global Pathway. Each Pathway requires a minimum of nine credit hours of study.

The Pathways connect classes by theme or concept, allowing you to pursue ideas across a broad range of disciplines, methodologies, and modes of experience.

The Pathways invite you to approach learning as a continuum, and to actively make connections between classes by drawing various strands together to create a larger whole.

Integrative learning of this kind has been shown to improve critical thinking, as well as help students to gain a greater appreciation of complexity and nuance as they encounter the tensions and similarities that exist between disciplines and practical applications in the world.

**You are receiving this flyer because you should add a Global or Thematic Pathway course to your fall schedule!**

## NEXT STEPS

Step 1: View the UB Curriculum Pathways Tutorial, <https://www.youtube.com/watch?v=rлуuv4OxavA>.

Step 2: Review Pathway information specific to Engineering and Computer Science majors, <http://www.eng.buffalo.edu/undergrad/advisement/pathways/>. This page provides guidelines for SEAS students to select pathways that align with their majors, thereby leading to completion of these requirements in the most efficient manner.

Step 3: Log on to UB's Pathfinder tool to begin selecting your pathways, [https://myub.buffalo.edu/path\\_finder/#/intro/1](https://myub.buffalo.edu/path_finder/#/intro/1).

Step 4: Enroll in a pathway course! View the HUB & Schedule Builder tutorial video to learn more about how to register, [https://myub.buffalo.edu/path\\_finder/#/intro/1](https://myub.buffalo.edu/path_finder/#/intro/1).

***You must add this class within 5 days of receiving this mailing to ensure the best selection of courses!***
