Many required courses for general education are automatically fulfilled for engineering majors by completion of their required technical courses. To review general education in its totality, please see the University Undergraduate Catalog. The remaining general education requirements that students completing an engineering degree need to fulfill are outlined below with links to the current class schedule pages where you will find possible course offerings/class descriptions.

Writing Skills

Students are required to complete ENG 101 and ENG 201, or ENG 201, (or their ESL equivalent), as placed, unless exempted by their score on the SAT/ACT, or by proper AP or transfer credit. AP credit and transfer credit will trump the SAT/ACT placement when appropriate.

SAT Reading 400-570 = ENG 101 and then 201, 580-720 = ENG 201, 730-800 = Exempt.

ACT English 17-26 = ENG 101 and then 201, 27-31 = ENG 201, 32+ = Exempt.

A student with a score of 4 or 5 on English Language & Comp exam (ENGC) will receive credit for ENG 101 and will thus be placed into ENG 201.

Library Skills

In order to assess his or her knowledge on how to locate, use and evaluate information from UB’s Libraries, all students are required to complete the Library Skills Workbook: http://library.buffalo.edu/help/instructional/libraryskillsworkbook.html

Five or six additional general education courses are required for students completing an engineering degree:
